---

### **Dear Neighbor:**

Harbor City Services wants your Document Shredding business.

Whether you are shredding your documents yourself, using a national company or not shredding your important documents at all, call us today to start using our shredding service.

### **Document Shredding prices start as low as \$15 per visit.**

Harbor City Services is a non-profit, self-supporting social enterprise that employs men and women in recovery from mental illness and addiction through employment, job training and support services. We empower workers to take control of their lives by providing excellent customer service. We do this through providing our customers with the four business lines mentioned above.

As a social enterprise, we have not received government or foundation money. We earn our money by providing **Document Shredding, Document Storage, Commercial Moving and Warehousing Services**. Supporting “social enterprise” is the next rung on the corporate ladder of social responsibility. We empower people who want to work, be trained, pay taxes and want to contribute to society.

As an “added value” service, Harbor City Services is proud to offer our shredding customers our new “**Paper Recycling Program**.” At time of shredding service, have your newspapers, magazines and non-sensitive papers collected, contained and marked near one of our shredding consoles. When we arrive for shredding pick up service, we will also pick up these papers and recycle them at “no charge.” This added value service saves you money on refuse “tipping fees” while helping to make your organization more environmentally friendly.

And remember, the Paper Recycling Program is FREE!

Harbor City Services, a licensed and insured non-profit company, looks forward to working with you. Call **410.737.6701** today for a free estimate. Thank you.

### **Save Money. Support People in Recovery.**
